Dear Friends,

This Thanksgiving our thoughts are with the many people who have been displaced by war and political turmoil.

We are so thankful to come to work each day and be part of the process that is helping New Americans join and create strong healthy communities. We never fail to be inspired by the challenges that our refugee clients faced, before coming here, and the determination of all clients to build a better future for their families in the US.

And we are thankful for the safety and security with which we can live our daily lives with our families, friends, and members of our own communities here in New York.

We want to express our gratitude to all the amazing people, funders, partners, and advisors, who make it possible for BCNA to support entrepreneurs in New York City to establish businesses and create jobs for themselves and members of their community.

Happy Thanksgiving,

Yanki Tshering

One of the most important ways we help our clients achieve the American Dream is by teaching them the importance of a good credit score and helping them achieve it through credit-building loans.
